

QP2 Quality Policy

Sapplicator Ltd will ensure that our products and services meet our customers' expectations, our own high standards, and comply with all relevant legislation and regulations.

Specific quality objectives will be set and reviewed through our business planning, management meetings and management review processes. To help achieve these, we will maintain a quality system that meets BS EN ISO 9001 – *"Quality Management Systems – Requirements"*

We must strive to continually improve our performance by regularly evaluating our products and services and identifying actions to ensure that our objectives are achieved and that problems are prevented.

We will ensure that this Quality Policy is both maintained and regularly reviewed for suitability, and that it is communicated and understood within the Organisation, and made available to relevant interested parties externally.
